Tujenge Taifa
School Management System

Run your whole school from one simple system

An introduction for head teachers, bursars and school owners

CBC and 8-4-4 | Fees on M-Pesa | Report cards | Parent app | Attendance | School accounts

Tujenge Taifa brings fees, results, attendance, timetables, homework, parent communication and the school's accounts together in one place, on the phones and computers your school already has.

Tujenge Taifa by Dupco Office Solutions · AMKAY Plaza, Nyali Road, Mombasa

How Tujenge Taifa helps your school

One system, four people, everyone sees exactly what they need.

🏫 Head teacher and owner

See the whole school at a glance: learners, fees collected, balances owed and today's payments. Results analysis and merit lists for every exam, and a monthly money-in, money-out summary for the board.

💰 Bursar

Set the fee structure once and bill every learner in one step. M-Pesa payments are matched to the right child with a numbered receipt. Send SMS fee reminders, track salaries, expenses and the school store.

👩‍🏫 Teachers

Mark the register and enter marks from a phone. The system calculates grades, positions and means, and prints the whole class's report cards at once, for CBC and 8-4-4.

👨‍👩‍👧 Parents

Check fee balances and receipts, pay by M-Pesa, and see results, report cards, attendance, homework, the timetable and school notices on their phone. They can message teachers directly.

What changes for your school

- **Fees come in faster.** Parents see their balance and pay from their phones; reminders go out in one tap.
- **No more lost receipts or disputes.** Every payment has a numbered receipt and its M-Pesa code.
- **Report cards in an afternoon, not days.** Marks, positions, comments and competencies are calculated for you.
- **Parents stay informed** without queuing at the office or losing circulars.
- **Know where the money goes,** with fees, salaries and expenses in one monthly report.

Everything that is included

- Learners, parents, classes and promotion
- Fee structures, invoices and balances
- M-Pesa payments, receipts and statements
- SMS to parents
- CBC and 8-4-4 marks and report cards
- Results analysis and merit lists
- Attendance and timetables (PDF)
- Homework with worksheets and hand-in
- Notices and parent messages
- Staff salaries, expenses and school accounts

Prices and getting started

Every plan includes every feature, unlimited logins, hosting, nightly backups, updates and support.

Plan	Learners	Per term	Per year (paid upfront)
Starter	up to 200	KES 3,500	KES 10,000
Standard	up to 500	KES 7,000	KES 20,000
Large	up to 1,000	KES 12,500	KES 35,000

Over 1,000 learners: KES 35,000 a year plus KES 35 per extra learner.

Pay once	Price	What it means
Lifetime licence	Starter: KES 30,000 Standard: KES 60,000 Large: KES 100,000	No subscription ever again. First year of hosting included, then KES 3,000 a year (KES 5,000 above 500 learners).
Private system	From KES 150,000	For large schools and school groups only: a system of your own, under your name and web address, with changes made for you. Ask us.

Setup and training: KES 10,000 at your school, or KES 5,000 online. SMS to parents: KES 1.20 per message, only for what you send.

> **The system can pay for itself.** Many schools add a small parent-portal or ICT fee, for example KES 500 per term. For 300 learners that is KES 450,000 a year, far more than the system costs. (Public schools follow their Board and Ministry fee guidelines.)

How we set up your school

1
Free trial
Register at app.tujengetaifa.com/register. Every feature is free for 7 days.

2
Send your lists
Class lists in Excel, your fee structure, staff list and term dates.

3
We set it up
We load learners, classes and fees and create staff and parent logins.

4
We train you
A short session for the bursar, teachers and head teacher.

What your subscription pays for

- **The full system every day** for every staff member, parent and learner.
- **Secure online hosting:** no server, no IT person, nothing to install.
- **Nightly backups:** a lost or broken laptop never means lost records.
- **Updates at no extra cost:** we follow CBC and Ministry changes and add new features for all schools.
- **Support from Dupco** by phone and WhatsApp, and help retraining staff.

Questions schools ask

Clear answers before you decide.

We are not very good with computers. Can our staff use it?

Yes. If you can use WhatsApp, you can use Tujenge Taifa. We train your staff, and a step-by-step user manual is always available at tujengetaifa.com/manual.

Our records are on paper or in Excel. Do we start from zero?

No. Send us your class lists in Excel (or photos of the register) and we load everything during setup.

Do you enter our data every day?

No. Your staff record the daily work (payments, marks, attendance), which takes less time than paper. Dupco loads your data once at setup and then keeps the system itself running, safe and up to date.

Is the Starter plan a smaller version?

No. Every plan has every feature. Plans differ only by school size and how you prefer to pay.

Is our information safe and private?

Yes. Only your school can see your records, each person sees only what their role allows, and everything is backed up every night.

What if the internet goes off?

The app keeps what you last opened on the phone, so you can keep viewing it. Changes are saved when the connection returns.

Can someone see our passwords? What if a password is forgotten?

No one can see passwords, not even Dupco. The administrator simply resets it and sends a new temporary password by WhatsApp or SMS.

Can learners log in?

Yes. Older learners can sign in with their admission number and the school code to see homework, results and the timetable.

Do we need to install anything or buy equipment?

No. It works in the browser on your existing phones and computers. An Android app is also on the way.

What happens if we stop paying?

The school account is paused, but nothing is deleted. When you pay again, everything is back exactly as it was.
